Girijananda Chowdhury Institute of Pharmaceutical Science, Azara, Guwahati-781017, Assam (India)

Since time immemorial, it is well documented that human beings have been using 'drugs' either from natural or synthetic source to help eradicate and treat various disease ailments. There is an increasing wide spread of both communicable and non-communicable diseases happening at the past and present era affecting a huge number of populations. According to the World health organization, an estimated death rate of over 57 million people was happening due to cancer, HIV/AIDS, tuberculosis, diabetes mellitus, lower respiratory infections, ischaemic heart disease, cerebrovascular disease and chronic obstructive pulmonary disease (WHO, 2012). Scientist from all over the globe have been working from head to toe trying to develop new methods and discoveries for generating a novel lead component(s) searching for a probable cure. Hence, there is a significant growth in research and development (R&D's) sector at pharmaceutical industries, institutes and clinical laboratories.

To promote the significance in the latest and current updates of research and development in drug discovery; scientist from all over the world take necessary steps in documenting and publishing their reports using various reputed peer reviewed Journals and internet sources. CRJPAS is an international peer reviewed Journal which aims to publish current updates in research & development in drugs discoveries in the form of review article, original article, short communication article and case study article. Articles are welcome from all fields of pharmaceutical background and/or other allied fields related directly or indirectly to pharmaceutical sciences.

❖ *Why publishing with CRJPAS?*

Submitting a manuscript to an unsuitable journal is one of the most common mistakes made by many authors, and both novice researchers are capable of making this error. Publication in a peer reviewed Journal is the ever achieving goals of many authors for their projects. Some of the important features of why publishing with CRJPAS is describe below:
